PROFESSIONAL SUMMARY

BBA student in Finance and Banking with training in Excel, SQL and Power BI from the AI-Driven Data Analytics Career Track (Ostad). Built four analytics projects covering HR attrition, sales performance, Excel dashboards and SQL reporting. Combines financial knowledge with analytical thinking to find trends and turn data into clear business insights. Seeking an entry-level Data Analyst, Financial Analyst or Business Analyst role.

EDUCATION

Bachelor of Business Administration (BBA), Finance and Banking
Jashore University of Science and Technology (JUST), Bangladesh — 2023 - Present

Higher Secondary School Certificate (HSC)
Ghatail Cantonment Public School & College, Bangladesh — 2019 - 2021

TECHNICAL SKILLS

- **BI and Reporting:** Power BI, Power Query, Excel (PivotTables, charts, slicers, lookup functions)
- **Languages:** SQL (MySQL), DAX, Python (basic)
- **Data Skills:** Data Cleaning, Data Modeling, Dashboard Design, Data Visualization
- **Office Tools:** Microsoft PowerPoint, Microsoft Word, Microsoft Excel
- **Finance:** Financial Modeling, NPV and IRR Analysis, Loan Amortization

PROJECTS

HR Workforce & Attrition Analysis | Power BI, DAX, Power Query | GitHub

- Built an interactive Power BI dashboard on 1,470 employee records, with DAX measures (including USERELATIONSHIP for hires and terminations by date), slicers and a calendar table.
- Found attrition of 16.1%, with overtime employees leaving at 30.5% versus 10.4% for others (sample dataset).

Sales Analytics Dashboard | Power BI, DAX, Power Query | GitHub

- Built a Power BI dashboard on 350 sales transactions using Power Query, DAX measures, decomposition tree, key-influencers and anomaly-detection visuals.
- Found Electronics generated 40.5% of sales and the East region led at 30.6% (sample dataset).

HR Analytics Dashboard | Excel | GitHub

- Built an interactive Excel dashboard with 17 PivotTables, 7 charts and 7 slicers to evaluate employee demographics, compensation KPIs and salary distributions across 1,470 records.

Sales Analytics and Database Querying | SQL (MySQL) | GitHub

- Created sales and products tables and wrote about 40 queries using joins, aggregations, GROUP BY and validation checks to extract sales KPIs; total sales reconciled to 16,950.00 across 20 orders (practice data).

CERTIFICATIONS AND TRAINING

- **AI-Driven Data Analytics Career Track Program** - Ostad (Batch 18). Completed the live training program (ID: C49312); 99.1% in coursework assessments (ID: A49315). Certificate
- **Corporate Excel and Professional CV Workshop** - Finance and Banking Club, JUST | Aug 2024. PivotTables, financial modeling, loan amortization, Goal Seek. Certificate
- **National Symposium: Technological Advancement in Fintech** (participant) - Department of Finance and Banking, JUST | Jun 2025 Certificate
